

BioSpa Distributing

presents IPL GEM Technology

Offer your clientele Advanced Medical Aesthetics with the

RECORD 618 IPL

As a spa owner, I have seen the positive results achieved for my clients and the benefits of the highly profitable services afforded by the **Record 618 IPL** treatments, including:

- Hair Removal
- Skin Rejuvenation
- Vascular Lesions
- Acne Treatments
- Hyperpigmentation (Age Spots)

The **Record 618** provides the above applications and more with its 12 computer-controlled operating programs. It requires only one hand piece and is easy to operate, unlike other laser and IPL units which require multiple, costly hand pieces.

The **Record 618** is a lightweight, portable, desktop-convertible unit suitable for easy transport between clinics. It is quick, safe, effective on all skin types, involves minimal pain or discomfort, and has little to no side effects. Best of all, the **Record 618** is an affordable, effective technology for Medical Aestheticians.

Advantages Over Laser:

- 100% non-invasive, completely painless and comfortable. The operator can overlap the treatment area more than 2-3 times without any discomfort.
- No risk of skin pigmentation or burning. Uses relatively low temperatures, allowing the light to penetrate deep into the skin without causing damage. The deeper the light is able to penetrate, the more effective the treatment.
- Special patented optical technique that focuses the light energy under skin level and not on top of it.
- No downtime is needed. Client is free to go outside and carry on with their regular day (tanning after treatments is discouraged).
- Broadband light allows for the treatment of a wider range of hair and skin colors, relative to a single wavelength.
- Crystal 512/Record 618 allows for a much larger treatment area [7.5 cm²], shortening the duration of each individual treatment.

TRAINING & PROMOTIONAL ASSISTANCE

We will provide you with a 1 to 2 day in-depth training session, which includes certification (a great value, free with the purchase of the Record 618 IPL).

We can advise you how best to promote your new services to existing clients and how to generate new ones. We will always be available to address any concerns and questions you may have with regards to your treatments. Help is just a phone call or email away.
